INTRODUCTION

INTERNATIONAL CHANNEL ELECTRONICS SERVICE CO. LTD. or ICCES Co. Ltd., have over twenty five years of successful growing business in the field of VSAT communications, data networking, systems integration and IT consultancy services. It is serving various customers in the kingdom of Saudi Arabia and abroad, from individual, private and government companies, government institutions and the royal families. Over the years, ICCES developed several expertise's and continuously acquire up to date skills and proficiency in the field of wireless and fiber data communications, CCTV, IP camera, systems integration, facility security and access systems, fleet management and vehicle tracking solutions.

Recently, ICCES Co. Ltd. has been certified for standardization, the **ISO 9001:2015** – Quality Management System and **ISO 45001:2018** – Health & Safety Management System.

As VSAT communication provider, ICCES Co. Ltd. acquire and operates its own VSAT hubs in Egypt, UK and the Netherland. Its engineers manage these hubs through the network operating centers (NOC) in Saudi Arabia, Egypt, UK and the Netherland. The ownership of such hubs ensures lower cost of operation and peace of mind for the customers of having only one provider for all their communication needs.

As Fleet Management and Vehicle Tracking solution provider, ICCES invested and developed advanced fleet management and vehicle tracking software platform that solves many of the problems of logistics company, taxi and rent a car operators, company fleet, vehicle financing companies and individual car owners.

ICCES Co. Ltd. acquired the required approval from **Public Transport Authority** to offer the services for Truck/Trailer weight sensors.

As IT Contractor, ICCES delivers data communication project on time and on budget. From the survey, design, implementation and maintenance of CCTV IP surveillance cameras, analog cameras to facility access security systems and other IP controlled equipment or devices at home or in office.

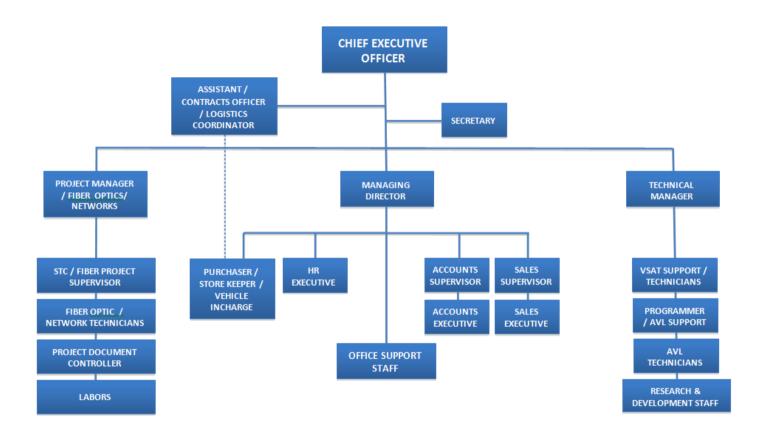

QUALITY POLICY

INTERNATIONAL CHANNEL ELECTRONICS SERVICE CO. LTD. (ICCES) is committed to carrying out all our business activities in a sustainable manner by pursuing continuous improvement in all aspects of our business. As part of our commitment to continual improvement, customer focus and compliance with statutory & regulatory requirements, ICCES's Quality program is based on the following principles:

- Providing customers with high quality services which meet requirements and are fit for their purpose.
- > Provide adequate support and resources for people at all levels to fulfill their responsibilities.
- > Ensure compliance with all the applicable standards.
- ➤ Provide opportunities for our people to develop the appropriate knowledge, skills and behavior to ensure that every activity or task is carried out with the utmost respect for quality.
- ➤ Enhancing the skills of employees through trainings, the objective of which is to develop employees to perform their work more effectively.
- > Promoting the culture of continual quality improvements and the philosophy of getting things "right first time".
- Promoting the quality management systems and ensuring implementation is achieved by internal auditing, management review, corrective and preventive actions.

ORGANIZATIONAL CHART

COMPLETED PROJECT WITH FIBER OPTIC SCOPE / OSP IMPLEMENTATION

ICCES have more than seven (7) years of experience in the design and implementation of fiber optic infrastructure jobs. Very recently, ICCES delivered WIFI networks running over fiber optic infrastructure in all Royal Protocol palaces in the Eastern Province in addition to all other fiber optic jobs executed in other parts of the kingdom, both Royal, government and private.

GPS TRACKING (AVL) / FL MANAGEMENT SOLUTION

Our Commitment

- Professional workmanship
- Quality products
- Very flexible terms and conditions
- Helping you to grow your business
- Technical and operation support 24 x 7

Our Capabilities

- ✓ Operating its own full featured AVL/GPS Platform/ Servers
- ✓ Experienced and competent engineering and technical team
- ✓ Very affordable annual tracking subscription fee. The cheapest rate in the market
- ✓ Very affordable GPS device
- ✓ Technical's and installers presence in the Eastern, Central and Western regions
- ✓ Quick and responsive team from center to any point in the kingdom when required
- ✓ Customized solution fitting your specific business requirement or personal preferences
- ✓ Authorized and exclusive distributorship of Teltonika FM1100, FM1110 tracking devices in the KSA
- ✓ Multiple strong suppliers of quality GPS products
- ✓ 15,000 GPS installed to date and adding more
 ✓ Strong GSM/GPRS data network coverage in the kingdom with STC and Zain
- ✓ International roaming. Travel anywhere across borders and seas and continue tracking your vehicle, your asset or goods
- ✓ Capable of satellite based AVL/GPS tracking solution for vehicles going into deep desert oil exploration, projects and camp sites

Our Platform Capabilities

- Supports various popular GPS devices in the market
- Browser and device responsive website
- Multiple user, multiple groups or fleet accounts creation and management
- Can generate many and various reports required by accounting and the management
- Capable of handling GPS device I/O data processing for more meaningful and relevant reports for business intelligent decision
- Multiple language support (Arabic and English)
- Customizable interface for easy tracking
- Automatic and Manual Vehicle Location
- Real-time mapping display
- Interval tracking
- Vehicle status

- Vehicle profile (Vehicle license expiration, Odometer reading, Engine hour reading, Vehicle maintenance settings)
- Driver profile (Driver license expiration)
- Remote Engine Cut Off
- Generate report (via Email, HTML, CSV, XML, XLS)
- User definable access
- Create multiple Geo-zones
- Create multiple Geo-Corridor
- Vehicle Maintenance (via Odometer or Engine hour reading)
- Automated email reporting including alerts
- Alerts (Over speeding, Power Fail, SOS, Low Battery, Geo-fence boundary breach, Etc. (Defend on what the client wants as long as we can connect sensor)
- Reports (Cargo door sensor, Seat belt sensor, OBD (for OBD Teltonika device), Trip report detail, Idle report, Geo-zone report, Odometer periodic service report, Engine hour periodic service report, Ignition report, Device and Driver Performance, License expiration, Etc.)
- Monitor alerts
- Vehicle alerts
- Multiple user-selectable map view including traffic statistics by Google

Applications/Target Customers:

- Transport and logistics companies like delivery trucks transporting perishable goods, medicines, cargoes, etc.
- 2. School bus service companies
- 3. Taxi and rent a car operators
- 4. Company service vehicles
- 5. Construction heavy machineries
- 6. Asset, goods or material in the yard tracking and monitoring
- 7. International, inter island cargoes, containers and other similar large scale shipment
- 8. Private car owners
- 9. Government vehicles
- 10. Hospital ambulances
- 11. Police cars
- 12. Sea crafts like fishing boats, yachts, etc.

Our Product Line

- Teltonika IoT/GPS tracking device
- Other Teltonika products for specialized customer requirement
- CONCOX GPS Compact tracking for 12V motorcycles and other vehicles.
 Very simple to install, compact, light and low power consumption. Allows for engine stopping, panic button, ignition alarm, anti-theft alarm. Ideally suited for basic tracking applications for all kind of light vehicles.
 - o GSM 850/900/1800/1900 Quad band
 - o Wide for voltage input range 9-36VDC
 - o GPS continuous positioning, GPRS timing interval
 - Vehicle Status-Fuel Cut Off (Kill Engine Feature)
 - Store up to 500 Coordinates prior to blind spot
 - Alarm Notification (via SMS(Optional), HTML or Excel File) :
 - SOS Panic button (Optional)
 - Over Speeding
 - Low Battery

- Device Removal/disconnected Intentionally from the Vehicle
- Voice tracking (Optional : Need a data sim card with calling function)

OUR VALUED GPS TRACKING (AVL) CLIENTS

- 1. Al Amam Factory for Concrete and Bricks
- 2. Al Attaf Car rental
- 3. Al Rajhi Development Corporation Ltd.
- 4. Al Salam Group
- 5. Al Shawafat for Contracting
